**Estudio Beccar Varela has acted as deal counsel to help financial services provider Compañía Financiera Argentina issue notes worth US\$40 million.**

---

The transaction closed on 17 January and saw Compañía Financiera Argentina issue the notes in two series as part of the bank's US\$250 million global issuance programme for short, medium and long term notes. Banco de Galicia y Buenos Aires and Standard Bank Argentina acted as placement agents.

Both series have been listed on the Buenos Aires Stock Exchange and are admitted to trading on the Mercado Abierto Electrónico.

Compañía Financiera Argentina regularly turns to Beccar Varela for notes issuances, most recently for a US\$34.5 million offering in October, as well as a US\$34.2 million issuance in May, both under the same global notes programme.
